

Test PDF Document

This is a test PDF document created to test the PDF extractor functionality. It contains multiple types of content including regular text, tables with various structures, and images with text that can be extracted using OCR.

Table 1: Simple Data Table

Product	Price	Quantity	Total
Laptop	\$999	2	\$1998
Mouse	\$25	5	\$125
Keyboard	\$75	3	\$225
Monitor	\$350	2	\$700

Table 2: Complex Table with Merged Cells

Category	Q1	Q2	Q3	Q4
Sales	1000	1200	1500	1800
Expenses	800	900	1000	1100
Profit	200	300	500	700

Images Section

Below are test images with text for OCR testing:

Sample OCR Text 1

Invoice #12345

This document demonstrates various content types that the PDF extractor should be able to handle. The extractor should successfully identify and extract:

- Regular text paragraphs
- Tables with different structures
- Images with embedded text (requires OCR)
